Courses : Computer Engineering **2018 - 2021,**
- **SSC** :- Mudhoji high School, Phaltan
Percentage :- **85.80%** **2017 - 2018**

PERSONAL PROJECTS

- **Student Database Management System :** **02/2022 – 04/2022**

The Student Database Management System is a web application built using **HTML5, CSS, JavaScript, Django, and SQL database**. It enables efficient management of student records, including **registration, attendance, and grades**. Users can **view, add, and update** student information, providing an intuitive and organized platform for educational institutions

- **Hostel management system** **02/2023 – 04/2023**

The Hostel Management System is a Java-based application that utilizes **JDBC and Hibernate** to efficiently manage hostel operations. It allows hostel staff to handle tasks such as student check-ins, room allocation, fee management, and room availability. The combination of JDBC and Hibernate provides seamless **database connectivity and ORM capabilities**, making the system robust and easy to maintain.

- **Build portfolio website :** **08/2022 – 12/2022**

Building a **responsive** portfolio website using **React.js** allows showcasing my work and skills effectively across different devices. Utilize React's component-based architecture, JSX for UI, and CSS for styling. Implement responsiveness using media queries and Flexbox/Grid. Showcase projects, skills, and contact information to create an impressive and accessible **online portfolio**.

SKILLS

JAVA (OOP, Core Java)

C & C++,

Advance JAVA

Data Structures
(Problem Solving)

Database (MySQL)

REACT.JS

Operating System

Computer Network

LANGUAGES

English

Marathi

Hindi

INTERESTS

Playing **OUTDOOR**
Games

Dancing

Trekking

Chess

EXPERIENCE

- **Internship :** **02/2023 – 04/2023**

During my internship at **FEUL**, I gained valuable experience in **Java programming**. I learned both core and advanced Java concepts and actively collaborated on various projects. Working with a team provided me with real-world exposure, enabling me to apply my skills effectively. This internship was instrumental in enhancing my Java proficiency and problem-solving abilities in a collaborative environment.

CERTIFICATES

- Learning java programming certificate by linkedIn
- Java Internship with **F.U.E.L**
- Learning Python programming certificate by linkedIn
- Java and Object Oriented programming Essential Training by **udemy**

EXTRA CURRICULAR ACTIVITY
